# Medical Treatments Management

## *Consumer Driven Health Care*

*Medical Treatments Management* is a worldwide source for health and wellness treatments, combining medical options with tourism. MTM is a medical facilitator that assists in the coordination of the program. MTM offers: access to wellness programs, medical treatment procedures, dentistry, diagnostic exams, technology support and travel planning.

Treatment options are available around the world in 40 different Medical Cities, each having several Hospital and Doctor Networks. MTM's top technology services provide clients with information regarding health care options that are both affordable and efficient, providing alternatives to other health care and/or in combination to current treatments.
